Congratulations  
To  
Brian Mausolf  
Class of 2007!

A fun-fly was held on Sunday, but Mother Nature wasn't helping. The sky was a deep blue, but the winds were topping 20 mph. Garry, Scott, Dan and James figured if we couldn't fly we might as well eat massive quantities of hot-dogs and hamburgers. Around 2:00 Garry set up his plane for some taxi-slalom races, and many found out the difficulty of keeping a tail-dragger's tail on the ground in a breeze. Note Hank's novel parking approach.

New Business:

Hand out the 2007 Club Officers Patches. No Officers tonight. Will carry over to next month.

Steve Watkins asked if All Seasons Flight statuses could be tracked easily if members were at a different flying field. Ed Russell expressed concerns over a policy for Aeromasters to follow. President and Secretary researched this in 2006 and determined that AMA rules authorize any field provided a successful takeoff and landing is completed each month.

Joe McCary was contacted by the people across from the field and was asked to contact the landowner, Mr. Foster. Joe contacted Mr. Foster, as he wanted to discuss a situation that happened at the field. Mr. Foster's realtor was showing the property to an interested party and stopped by the flying site. The realtor asked someone from the club what they thought of the lake, and the response was... the pond smells all the time. Mr. Foster was not too happy about the statement. The lesson learned is please do not answer any questions if a realtor or possible client of the realtors approaches you. Please refer these people to Joe, or myself. Currently Joe is our liaison with Mr. Foster.
